

# VCE Unit 4 Exam Preparation

11, 12 & 15 Week Intensive Target Classes: Late July, 2009

English Further Mathematics Mathematical Methods Specialist Mathematics Physics Chemistry Biology  
Psychology Physical Education Health and Human Development Outdoor and Environmental Studies  
Food and Technology IT Applications Accounting Economics Legal Studies Business Management

*Experience the smallest class sizes!*

*Venue: TSSM's VCE Centre (Suite 1, Level 14, 474 Flinders Street, Melbourne)*

**Presenters are VCE assessors**

**Develop...**

**More powerful study habits**

**Most effective problem solving strategies**      **Greater self confidence**

**Superior exam accuracy**      **Better exam techniques.....**

Our VCE Intensive 11, 12 & 15 Week Target Classes have been specifically developed to be the most comprehensive and detailed Unit 3 and 4 exam preparation available. Each tuition class runs for 2 hours per week.

Each weekly Target Class will target and extend on the finer details of all key concept areas of the VCAA Study Design for each subject, ensuring that students receive the most in depth examination preparation available.

**TSSM**<sup>TM</sup>  
**Creating VCE Success**

# VCE Intensive Target Classes - 26 hour, 28 hour and 34 hour Course Details

## What are *TSSM's* Target Classes?

Our Target Classes are weekly tuition classes conducted in small groups of 8-12 students. *TSSM* has developed an exclusive exam preparation program that is tailored towards VCE students who are specifically targeting an ENTER score of above 90.

Our team of specialist VCE teachers understand the academic demands placed on high achieving students and with this in mind have spent hundreds of hours developing our VCE Intensive Target Classes for each subject.

Each weekly Target Class will target and extend on the finer details of all key concept areas of the VCAA Study Design for each subject ensuring that students receive the most in depth examination preparation.

Unit 3 material will only be revised for subjects where both Units are covered on the final exam. Visit [tssm.com.au](http://tssm.com.au) for a week-by-week thorough breakdown of the course structure for each subject.

## Our Students get the Best Results!

Rather than making unsubstantiated bogus claims about our students' ENTER scores, here are the actual facts collected from our 2008 students:

- 47.37% scored an ENTER of above 90.
- 10.53% scored an ENTER of above 95.
- 5.26% scored an ENTER of above 99.
- 63.16% scored a study score of above 40 for at least one subject.
- 3.07% scored a perfect study score of 50 for at least one subject.

**Why gamble with your son or daughter's future by sending them to tuition classes that are not targeting peak results?**

## Only 8-12 students per Target Class guaranteed!

We insist on providing students with the smallest class sizes in Victoria! The benefits of smaller class sizes include:

### • Deeper content being covered:

In smaller classes, our teachers introduce more topics, cover more content and use more individual teaching strategies, targeting the specific points of the Study Design in greater detail.

### • Individual concerns being addressed:

In smaller classes, our teachers are able to clarify key examinable concepts on a one-to-one basis.

### • Students are encouraged to ask questions:

Unlike other tuition classes, *TSSM's* Target Classes give students ample opportunity to ask specific questions on concepts that they are challenged by at school or during the course.

### • Conclusive research is on our side:

There has been an exorbitant amount of research concluding that students in smaller class sizes learn faster and more effectively than in larger classes. Yet other providers insist on having 20 or more students in each tuition class!

## Subjects covered ...

The 12 Week (28 hour) Intensive Target Classes are available for:

- English
- Physics
- Chemistry
- Biology
- Psychology
- Physical Education
- Health and Human Development
- Outdoor and Environmental Studies
- Food and Technology
- IT Applications
- Economics
- Accounting
- Business Management
- Legal Studies

The 11 Week (26 hour) & 15 Week (34 hour) Intensive (Mathematics) Target Classes are available for:

- Specialist Mathematics
- Mathematical Methods
- Mathematical Methods (CAS)
- Further Mathematics

## 3 Steps to Success!

Our VCE Intensive Target Classes are structured into three parts to ensure maximum learning and the very best VCE results:

### • Step 1 - The Advanced Blueprint to VCE Success seminar (Week 1)

Held over two days (6 hours in total), it is designed to develop the skills and strategies necessary for students to become more efficient learners and more focused on achieving their goals.

### • Step 2 - Progressive and detailed revision of the entire subject (Weeks 2 to 11)

With 2 hours per week for 10 weeks (20 hours), the examinable topics will be addressed systematically and students will complete examination style questions weekly.

### • Step 3 - Trial exam paper under strict examination conditions (Weeks 12 to 15)

Students attending the 12 Week Intensive Target Classes will complete a trial examination paper under strict examination conditions in week 12. Students attending the 15 Week Intensive (Mathematics) Target Classes will complete four trial examination papers under strict examination conditions during weeks 12 to 15.

Upon completion, the trial examination papers will be assessed and immediate feedback will be given on how scores can be improved. The trial examination papers are written by senior VCE teachers, published authors, VCE assessors and state reviewers with ample experience in setting and marking VCE examinations. These trial examination papers are written specifically and exclusively for our Target Classes.

Students attending the 11 Week Intensive (Mathematics) Target Classes will not continue to step 3. We recommend all students studying mathematics to enrol in the 15 Week Target Classes.

**“We provide students with  
the smallest class sizes!”**

# VCE Intensive Target Classes - More Benefits in our Tuition Classes!

## Highest interactive instruction available!

*TSSM* provides students with the most highly interactive tutorial classes. This is achieved by having the best VCE teachers teaching the smallest class sizes. Our teachers provide students with the most detailed instruction to:

- Reinforce the most important examinable content
- Consolidate ideas and strategies in preparation for the examinations
- Extend on examinable topics to achieve the elite study scores.

## Most extensive course notes available - Written by VCE Exam Assessors to an A+ Standard

Students will receive a substantial set of notes and questions each week for each subject which will include:

- A detailed summary of all examinable topic areas
- Fully worked examples throughout the notes
- Examination style questions designed to consolidate concepts taught, ensuring that students develop real skills in answering exam questions.
- Not just review questions, our exam questions are written comparable to those that students are likely to encounter in the official exams

## Systematic exam preparation and revision

Each Intensive Target Class will provide students with a systematic approach to exam preparation. Students will be given detailed instruction and a step-by-step revision through the entire syllabus developing:

- Superior time management skills reducing workloads & exam pressure
- Better Exam techniques and strategies to help maximise their ENTER.
- A deeper understanding of what is required in the examinations through detailed instruction from our highly experienced teachers who are VCE exam assessors.

## More tailored instruction and one-to-one support

With only 8-12 students in each tutorial class, our teachers have the best opportunity to provide students with one-to-one tailored instruction and support, more so than any other service provider.

## Ask questions before, during and after each tuition class

Our teachers are more committed and dedicated to ensuring that VCE students are given every opportunity to succeed in achieving high ENTER scores. Students are encouraged to ask questions throughout the course.

## An in depth focus on problem solving strategies

Each Intensive Target Class will provide students with a systematic approach to solving the more complex analytical types problems. These type of questions tend to carry greater weighting in the official VCAA examinations. With our proven systematic approach, students have been able to obtain perfect scores for VCE subjects.

## Our teachers are the very best! They include VCAA Exam Assessors, State Reviewers and Published Authors

Our VCE teachers are the very best! The majority of our teachers are VCAA Assessors, State Reviewers and Published Authors who have an in depth understanding of the specific course and assessment requirements of students. Our teachers have a knack for making students feel more comfortable in a friendly study environment encouraging student participation and interaction.

## Highly motivational and supportive!

Our tutorial classes will motivate and support students who want to achieve a high ENTER score. Our experienced VCE teachers are friendly, supportive and easy to get along with. Students will find our centre's environment a delightful atmosphere for maximum learning.

## Additional Target Classes as required FREE of charge!

Students will have the opportunity to attend additional repeat Target Classes as required. This is beneficial when a student requires more instruction on a particular concept or topic covered.

## Ability to switch class times and teachers

We understand that student circumstances change and if for any reason a student wishes to switch class times and/or teachers at any point during the course, then they may do so by contacting our head office. Please understand that we do strictly limit our class sizes to 8-12 students.

## 12 weeks of superior examination preparation - Tested and proven method for examination success

The Intensive Target Classes are the only 28 hour VCE examination preparation programs available. They are delivered as two 3 hour sessions in week one and eleven weekly sessions of 2 hours each thereafter.

We provide students with a tested and proven method to prepare for examination success. Why risk it with any other VCE provider? Our Target Classes have proven and published results!

## Detailed 11 & 15 week Mathematics Target Classes - Practice under strict examination conditions

Time management in VCE Mathematics examinations is most critical. Many students fail to complete their examinations within the specified time frame because of a lack of full examination practice.

*TSSM's* 15 Week (34 hour) Intensive (Mathematics) Target Classes are the only programs available that allow students to practice four full trial exam papers under strict exam conditions over an additional four weeks.

Two of the examination papers will be based on written examination one and two will be based on written examination two. Upon completion, the trial examination papers will be assessed and immediate feedback will be given on how scores can be improved for the official examinations.

We recommend all students studying mathematics to enrol in the 15 Week Target Classes, although students may choose to do the 11 week Target Classes without covering the four full trial examination papers.

Visit [tssm.com.au](http://tssm.com.au) or call 1300 134 518 for information on the teachers for each subject.

Intensive Target Classes Backed by *TSSM's*

**100%** Money Back Guarantee\*

"Maths is a subject that you need a lot of practise to really understand what you are doing. This program really made me feel confident and have fun while doing maths." Jessica Raudino.

# At the VCE Intensive Target Classes Students will Develop ...

# 4

## More powerful study habits

By attending the 11, 12 or 15 Week Intensive Target Classes, students will make preparing for their examinations a habit which will in turn increase their efficiency and reduce their study time.

## A deeper knowledge of examinable areas

Students will be instructed by the very best VCE teachers on the specific knowledge requirements as set out by the VCAA Study Design for each subject.

---

"I found this program to strengthen my understanding of the Areas of Study. The content and presenter of the program were terrific, I know that I will gain a huge advantage for exams and schoolwork as I did for Biology last year. I would recommend this to any student interested in succeeding in their VCE."  
Hamish Nelson.

---

## Exceptional time management skills - Critical for official VCAA Examination completion

Through intensive weekly instruction and the completion of examination style questions, students will develop exceptional time management skills leading up to the official examinations. This will prove to be a critical part of their exam preparation.

---

"The notes were very extensive and the questions were able to give me a great indication of what I am to expect in the exam. These programs are fabulous!" Priscilla Khoshbakht.

---

## Superior accuracy and speed

Students will be given extensive examination practice by completing examination style questions weekly under strict time constraints as recommended by the VCAA for each examination.

## Superior examination techniques

*TSSM* will provide students with the most effective examination techniques, more effective than any other service provider. These examination techniques are used by the elite A+ students, proven to maximise their ENTER scores.

## Greater self confidence

Students will become more confident, more positive and less stressed about their examinations by developing greater self confidence in each subject area.

---

"It has provided me with the necessary impetus to succeed in my VCE studies. Thanks to *TSSM*, my confidence is bursting at the seams, and I would personally encourage anyone who wishes to pursue a higher level of tertiary studies to enrol in *TSSM* today!" Abdullah Hashmi.

---

## Subject specific skills for SACs

Not only will students develop greater examination skills, but they will also be given ample opportunity to enhance skills necessary to perform highly in SACs through weekly instruction from some of the very best VCE teachers.

Do you have any questions? Please call us today on 1300 134 518!

***TSSM***<sup>™</sup>  
Creating VCE Success

*TSSM* is the leader in innovative educational programs assisting students to create VCE success. Our decision to never compromise quality ensures that you will experience the most comprehensive revision programs available. Our course standards are so high that even our presenters are surprised at how thorough we are in ensuring that each student is completely satisfied. And with our exclusive guarantee, we have made it a risk free investment for you.

"Helen Voidis went over and above the requirements of the program. The program made me feel like part of a family and I would definitely recommend this to other people." Lauren Davis.

# Program Dates and Times

## Timetable (including dates) for Week 1 - Advanced Blueprint to VCE Success Seminar

The Advanced Blueprint to VCE Success seminar (week 1 of the course) provides students with the latest technologies on how to maximise their ENTER scores.

This seminar is designed for students who are striving for peak performance in VCE.

### Class 1

### Class 2 (Repeat of Class 1)

#### Part 1

#### Part 2

#### Part 1

#### Part 2

Saturday July 18, 9am-12pm

Sunday July 19, 9am-12pm

Saturday July 18, 1pm-4pm

Sunday July 19, 1pm-4pm

### Please Note:

- Week 1 is a 6 hour (over two days) Advanced Blueprint to VCE Success seminar.
- Weeks 2 to 15 consist of 2 hour classes per week per subject.
- All 11 and 15 Week Intensive (Mathematics) Target Classes will run straight through the term 3 holidays.
- All 12 Week Intensive Target Classes will not run between September 21 and September 27, 2009.
- Students attending the 11 Week Intensive (Mathematics) Target Classes will not continue past week 11 of the timetable.

*Want a week-by-week breakdown of the exact content being covered in each subject?*

*Full details available at [tssm.com.au](http://tssm.com.au) or call 1300 134 518!*

# Investment Options

There are two investment options to choose from; a once off upfront investment for the entire program or a periodic plan over the duration of the program.

## Upfront investment:

- 11 Week VCE Intensive (Mathematics) Target Classes - \$575 (Inc. GST) per student per subject.
- 12 Week VCE Intensive Target Classes - \$600 (Inc. GST) per student per subject.
- 15 Week VCE Intensive (Mathematics) Target Classes - \$775 (Inc. GST) per student per subject.

## Periodic Plans:

This option requires authority to be given (on the enrolment form) to TSSM to debit a credit card for the two instalments and the initial deposit as described in the following facility structure. This facility attracts a \$40 fee per subject per student. Facility structure follows for each course:

### 11 Week VCE Intensive (Mathematics) Target Classes Period Plan Structure

**Initial Deposit**  
A \$191.66 deposit per student per subject must accompany the Enrolment Form.

**Two Instalments (Debit authority must be given to TSSM)**  
First instalment of \$211.67 due September 10, 2009.  
Second instalment of \$211.67 due October 10, 2009.

**Total Investment when using the Periodic Plan:**  
\$615 (Inc. GST) per student per subject.

### 12 Week VCE Intensive Target Classes Period Plan Structure

**Initial Deposit**  
A \$200 deposit per student per subject must accompany the Enrolment Form.

**Two Instalments (Debit authority must be given to TSSM)**  
First instalment of \$220 due September 10, 2009.  
Second instalment of \$220 due October 10, 2009.

**Total Investment when using the Periodic Plan:**  
\$640 (Inc. GST) per student per subject.

### 15 Week VCE Intensive (Mathematics) Target Classes Period Plan Structure

**Initial Deposit**  
A \$258.34 deposit per student per subject must accompany the Enrolment Form.

**Two Instalments (Debit authority must be given to TSSM)**  
First instalment of \$278.33 due September 10, 2009.  
Second instalment of \$278.33 due October 10, 2009.

**Total Investment when using the Periodic Plan:**  
\$815 (Inc. GST) per student per subject.
