College, Senior Campus

University of Ballarat,
SMB Campus

Monash University,
Gippsland Campus

Presenters are VCE assessors

Develop...

More powerful study habits

Most effective problem solving strategies **Greater self confidence**

Superior exam accuracy **Better exam techniques.....**

Our September Holiday and October exam preparation programs have been specifically developed to provide students with that edge of understanding that will propel them closer to achieving an A+ on their examinations.

Each program will thoroughly review the entire course material and focus primarily on examination related questions including the more difficult analytical problems. The two programs are different; further details inside.

TSSMTM
Creating VCE Success

VCE Exam Preparation Program for Units 2 & 4- Two Different Programs for 18 Subjects!

Our Unit 4 September Holiday and 3.5 or 4.5 Hour exam preparation programs are structured very differently. TSSM is committed to providing students with an exclusive 12.5 hour combined exam preparation for each subject. To obtain the most comprehensive revision, we encourage students to attend both programs for each subject. A comprehensive revision for Unit 2 subjects is also held during the September Holidays. The 3.5 or 4.5 Hour Final Exam Preparation program is **not** available for Unit 2 subjects.

September Holiday Full Day (8 Hour) Exam Preparation Program

Our September Holiday Full Day (8 Hour) exam preparation program will assist students to thoroughly review all the Areas of Study as set out by the VCAA Study Design for each subject. This will ensure that students revise all of the crucial content that may be emphasised on the final year examinations. This program is available for the following subjects for **Unit 4**:

- English (Specific contexts & texts are covered)
- Specialist Mathematics
- Mathematical Methods
- Mathematical Methods (CAS)
- Further Mathematics
- Physics
- Chemistry
- Biology
- Psychology
- Physical Education
- Health and Human Development
- Outdoor and Environmental Studies
- Food and Technology
- IT Applications
- Economics
- Accounting
- Business Management
- Legal Studies

This program is available for the following subjects for **Unit 2**:

- Mathematical Methods (CAS)
- English (Essay writing workshop)
- Physics
- Chemistry
- Biology
- Psychology

Course details are described below:

- Each subject is designed to provide students with the most comprehensive preparation for the final year examinations.
- Emphasis will be placed on covering all Areas of Study as prescribed by the VCAA Study Design for each subject during the program. Each student will receive a comprehensive set of revision notes perfectly bound and professionally presented.
- Students will solve an extensive range of trial exam questions ensuring they are thoroughly prepared for the final exams. 80 exam style questions will be given to each student with solutions provided upon the completion of the program.
- Students will be given ample opportunity to ask questions. We will ensure that each students' concerns are specifically addressed. Concepts found difficult will be clarified in detail.
- Students will receive regular breaks totalling at most one hour, except for Unit 2 English; break will be 30 minutes.
- Students attending the Unit 4 September Holiday English program must attend the analysis of language use plus at least one context revision. It is also recommended for students to attend at least one text revision, as this will also be examined.

3.5 or 4.5 Hour Final Exam Preparation Program in October

This program is designed to give students a detailed revision of the entire examinable course content for each subject leading up to the final year examinations. Students will be exposed to examination tricks, hints and strategies used by the elite VCE students to maximise their ENTER score. **The 4.5 Hour program will be held in Melbourne, whereas the 3.5 Hour program will be held in Bendigo, Ballarat and Gippsland.** This program is available for the following subjects for **Unit 4** only:

- English (Specific contexts & texts are not covered)
- Specialist Mathematics
- Mathematical Methods
- Mathematical Methods (CAS)
- Further Mathematics
- Physics
- Chemistry
- Biology
- Psychology
- Physical Education
- Health and Human Development
- Outdoor and Environmental Studies
- Food and Technology
- IT Applications
- Economics
- Accounting
- Business Management
- Legal Studies

Course details are described below:

- Each student will receive a comprehensive set of revision notes perfectly bound and professionally presented.
- Students will receive a 50 question quiz for each subject, designed to isolate and enhance areas where students lack understanding. Solutions provided upon completion.
- Students will complete part of a full trial exam paper (two for the mathematics subjects) with the presenter's guidance, gradually throughout the program (solutions provided upon completion).
- Emphasis will be placed on probable exam questions, hints, tricks and exam strategies used to maximise their ENTER.
- Students will receive a 30 minute break during the 4.5 Hour program and a 15 minute break during the 3.5 Hour program.
- Specific English contexts and texts will not be covered during this program. Contexts and texts are covered during the September Holiday program.

BENEFITS & TESTIMONIALS

"The board notes and the given notes were excellent. Presenter was fantastic and very professional. It boosted my confidence in Physics." Sarah Gilbert.

VCE Exam Preparation Programs - Unique and Exclusive Course Benefits

We provide students with the smallest class sizes!

Rather than having large auditoriums of 300 to 500 students, at *TSSM* we ensure that our class sizes are the smallest. Each student is given equal opportunity to spend more time with the presenter ensuring that the program is targeting their specific needs.

With the capacity to run multiple classes of each subject at the one time, we have limited our September Holiday program to 40 students per class and our 3.5 or 4.5 hour programs to 80 students per small lecture.

More interactive and flexible programs

Students will be encouraged to ask questions at any point during each program to clarify key concepts that they find difficult. Students will benefit from our experienced presenters' flexibility and interaction on the day ensuring that each student's specific concerns are addressed.

"Pat is a really good presenter, explains things well, asks us for answers, so you get good interaction." David Jackson.

"The overall program was great and very interactive!" Andrea Wilkins.

"This program was good revision for the exam. It provided good interaction which allowed my personal questions about the work to be answered." Lilian Steiner.

Most comprehensive course notes - Written to an A+ Standard

Students will receive a thorough set of notes for each program. These notes are being continually reviewed and enhanced in accordance with the specific details of the study design for each subject. Any changes to the study design, however minor are reflected in these notes. The study notes are perfectly bound and professionally presented.

"I have always found the revision notes greatly helpful and I am very satisfied with the program." Skye Cashion.

"The notes are really well done and extensive. Quite helpful." Lindell Hoskins.

"Great notes, great presenter and great atmosphere! Would recommend to all." Daniel Trimarchi.

Practice examination style questions - Provided during each September Holiday program

Students will receive at least 80 specific exam style questions for each September Holiday program. Not just review questions, these questions are written in a comparable fashion to those that students are likely to encounter in the official exams. It is extremely important for students to practice these types of questions in the lead up to their final exams.

Full trial examination paper provided with solutions - Given during each 3.5 or 4.5 hour program

Students will be given a full trial examination paper (two for mathematics subjects) provided with solutions for each subject. The trial examination papers have been specifically written for each 3.5 or 4.5 Hour program. Students will complete parts of the trial examination papers gradually during each program with the presenter's guidance and emphasis.

Identifying students' strengths and weaknesses - 50 question quiz for the 3.5 or 4.5 hour program

Students will be provided with a 50 question quiz (solutions provided upon completion) which has been specifically written for the 3.5 or 4.5 Hour program designed to isolate and enhance areas where students lack understanding.

Four English Contexts are revised for 4.5 hours each & twenty English Texts are revised for 2 hours each - During the Unit 4 September Holiday program

Students attending the Unit 4 English September Holiday exam preparation program, must attend the analysis of language use plus at least one context. It is also recommended for students to attend at least one text revision, as this will also be examined. Students are able to choose which contexts they wish to cover thoroughly for 4.5 hours each and which texts they wish to cover thoroughly for 2 hours each. *TSSM* is the only organisation committed to providing a detailed revision on every context and text on the 2009 English text list.

Our Unit 2 English September Holiday exam preparation program is an essay writing workshop which will build the skills necessary to succeed in the Unit 2 final exams.

Our 3.5 or 4.5 Hour Unit 4 English program will be an essay writing workshop. Students will be instructed on essay writing for the final examination including the analysis of language use and general essay structure for the context and text components. Specific English contexts or texts will not be covered.

Our teachers are the very best! They include VCAA Exam Assessors, State Reviewers and Published Authors

Our VCE teachers are the very best! The majority of our teachers are VCAA Assessors, State Reviewers and Published Authors who have an in depth understanding of the specific course and assessment requirements of students. Our teachers have a knack for making students feel more comfortable in a friendly study environment encouraging student participation and interaction.

Want to know who our presenters are for each subject?

Full details available at tssm.com.au or call 1300 134 518!

"I found the program very useful. I liked the small class sizes and the interaction between the students and presenter. Justin was so helpful and delivered the day very well." Sarah Waugh.

At the VCE Exam Preparation Programs Students will Develop ...

2&
4

More powerful study habits

By attending the September Holiday and 3.5 or 4.5 Hour programs, students will learn powerful study habits which will increase their efficiency and reduce their study time.

A deeper knowledge of examinable areas

Students will be instructed by the very best VCE teachers on the specific knowledge requirements as set out by the VCAA Study Design for each subject.

"I thought this lecture was excellent. The presenter was excellent and this lecture has definitely improved my knowledge in this subject."
Elyse Pereira.

"The program was presented in a professional way. I learnt a lot more in depth economic processes. The presenter went through each component in a logical and thorough way." Michael Di Giocco.

Superior accuracy and speed

Students will develop superior accuracy and speed by learning how to answer commonly asked examination questions in an efficient manner. Our programs provide students with the most effective systems used to achieve the higher grades in the examinations.

Superior examination techniques

Students will learn the most effective examination techniques used by the elite A+ students, proven to maximise their ENTER scores year after year.

Greater self confidence

Students will become more confident, more positive and less stressed about their examinations by developing greater self confidence in each subject area.

"Thank you very much. My confidence has increased dramatically, will be recommending to friends and family for years to come. Thank you!!"
John Preston.

Most effective problem solving strategies

Both examination preparation programs will focus on providing students with a systematic approach to solving more complex analytical type problems. These types of questions tend to carry greater weighting in the official VCAA examinations. With our proven systematic approach students have been able to obtain perfect scores for VCE subjects. In fact some of our past students have received the exclusive premier's award - only given to the top five students in the state!

Did you know that ...

Over 350 schools currently use our VCE resources!

Last year 47.37% of our students scored an ENTER above 90!

Only 0.1949% of our students have ever asked for a refund - that's 1 in every 513!

TSSM
Creating VCE Success

TSSM is the leader in innovative educational programs assisting students to create VCE success. Our decision to never compromise quality ensures that you will experience the most comprehensive revision programs available. Our course standards are so high that even our presenters are surprised at how thorough we are in ensuring that each student is completely satisfied. And with our exclusive guarantee, we have made it a risk free investment for you.

**OUR
GUARANTEE**

We want you to tell us if we don't deliver and we'll insist on giving you a complete REFUND – and any service FREE on your next visit.
